

Table 2. Results from Cox proportional hazards model.
Significance is indicated by a hazards ratio (HR) less than 1,
confidence interval not over lapping 1, and a p-value < 0.05.

Characteristic	HR	95% CI	p-value
Wound			
Fragmentation	-	-	-
Abrasion	0.32	0.12, 0.80	0.015
Temp			
Ambient	-	-	-
Elevated	1.27	0.52, 3.07	0.6
